DAQ-048-07

MEMORANDUM

TO: Air Quality Board

THROUGH: Cheryl Heying, Acting Executive Secretary

FROM: Colleen Delaney, Environmental Scientist

DATE: June 21, 2007

SUBJECT: FINAL ADOPTION: R307-405, Permits: Major Sources in Attainment or Unclassified Ares (PSD).

On April 4, 2007, R307-405 was proposed for public comment. A public hearing was held on May 23, 2007. No comments were received on the proposal.

During review of the rule, DAQ staff discovered that there was one reference to a definition in 40 CFR 52.01 that did not specify the version of the CFR that should be used. The rule was changed to incorporate by reference the definition, effective July 1, 2006, to be consistent with the rest of the rule.

Staff Recommendation: Staff recommends that R307-405 be adopted with the minor amendment displayed in the attachment.

DAQ has completed a 5-year review of the permitting rules that are located in the 400 series. As a separate action, staff recommends that the Board continue these rules by approving the attached forms to be filed with the Division of Administrative Rules.

Original Proposal

R307-122-2. Amount of Credit.

As specified in Subsection 59-7-606 and Section 59-10-128, there is a credit against tax otherwise due under this chapter in an amount equal to 10%, up to a maximum of \$50, of the total of:

- (1) the purchase price or
- (2) both the purchase price and installation cost of each approved fireplace or wood stove.

R307-122-3. Proof of Purchase.

Proof of purchase of an item for which a credit specified in R307-122-2 is allowed shall be made by submitting to the executive secretary, or representative appointed by the executive secretary:

- (1) a copy of the sales receipt clearly stating the make, model, and price paid for the equipment and installation; and
- (2) a completed copy of the "Clean Fuel Alternative Tax Credit Stoves/Fireplaces" form identifying the:
 - (a) owner's name and address;
 - (b) owner's social security number or taxpayer identification number;
 - (c) dealer's name and address;
 - (d) fireplace make and model;
 - (e) fireplace serial number;
 - (f) purchase price;
 - (g) installer's name and company name; and
 - (h) installation cost.

R307-122-4. Duty to Acknowledge Proof of Purchase.

An authorized representative of the executive secretary will acknowledge receipt of proofs specified in R307-122-3 by signing the relevant written statement provided on the State Tax Commission "Clean Fuel Alternative Tax Credit Stoves/Fireplaces" form.

other changes to the rule text that are required because of the change in the incorporation date.

SUMMARY OF THE RULE OR CHANGE: The federal Prevention of Significant Deterioration (PSD) permitting program in 40 CFR 52.21 is incorporated by reference into Rule R307-405. The attached rule change updates the incorporation by reference to the most recent version of the CFR, dated 07/01/2006. The following updates to 40 CFR 52.21 will be included: 1) on 11/29/2005, the Environmental Protection Agency (EPA) finalized rules to implement the 8-hour ozone National Ambient Air Quality Standard. As part of this rulemaking, EPA made minor changes to the federal PSD rules to add NOx as a precursor to ozone; 2) a minor correction to 52.21 was published in the Federal Register on 06/22/2005 to remove paragraphs (b)(2)(iii)(h)(1) and (2). These paragraphs were not previously incorporated into Rule R307-405 so this change has no practical effect in Utah. There are a number of other changes to the rule text that are required because of the change in the incorporation date. These changes are nonsubstantive; 3) on 10/27/2003, EPA promulgated the Equipment Replacement Provision of the Routine Maintenance, Repair and Replacement Exclusion. On 03/17/2006 the DC Circuit Court of Appeals vacated these new provisions. The incorporated text in Rule R307-405 has been modified to remove the provisions that were vacated by the DC Court of Appeals. This is nonsubstantive change because Utah's PSD rule was based on an earlier version of the federal rule and therefore, did not contain the Equipment Replacement Provisions; 4) the incorporation by reference of the definitions of "emissions unit" and "replacement unit", effective 01/06/2004 is no longer required as a separate incorporation because these definitions are included in the 07/01/2006 version of the federal rule. In addition, paragraph 40 CFR 52.21(aa)(6)(ii) that was added in the 01/06/2004 version of the CFR does not need to be incorporated separately from the rest of section (aa); and 5) a numbering error in Section R307-405-3 was corrected by moving the definition of "air quality related values" to become paragraph (3) instead of paragraph (2).

STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS RULE: Section 19-2-104

THIS RULE OR CHANGE INCORPORATES BY REFERENCE THE FOLLOWING MATERIAL: 40 CFR 52.21, July 1, 2006, and 40 CFR 51.166, March 17, 2006

ANTICIPATED COST OR SAVINGS TO:

❖ **THE STATE BUDGET:** No costs or savings are expected because the cost of Air Quality's activities in issuing approval orders under Rule R307-405 is covered by fees paid by the sources.

❖ **LOCAL GOVERNMENTS:** Because the amendment does not create new requirements for sources owned or operated by local government, no change in costs is expected for other persons.

❖ **OTHER PERSONS:** There is no change in costs for other persons, because NO2 is already a PSD pollutant and NO2 is typically measured as NOx. Further, it is not anticipated that

RULE ANALYSIS

PURPOSE OF THE RULE OR REASON FOR THE CHANGE: The federal Prevention of Significant Deterioration (PSD) permitting program in 40 CFR 52.21 is incorporated by reference into Rule R307-405. The purpose of the change is to update the incorporation by reference to the most recent version of the CFR, dated 07/01/2006. In addition, there are a number of

any additional sources will be regulated due to this change in applicability.

COMPLIANCE COSTS FOR AFFECTED PERSONS: There is no change in costs for affected persons, because NO₂ is already a PSD pollutant and NO₂ is typically measured as NO_x. Further, it is not anticipated that any additional sources will be regulated due to this change in applicability.

COMMENTS BY THE DEPARTMENT HEAD ON THE FISCAL IMPACT THE RULE MAY HAVE ON BUSINESSES: No change in costs is expected for businesses, because NO₂ is already a PSD pollutant and NO₂ is typically measured as NO_x. Further, it is not anticipated that any additional sources will be regulated due to this change in applicability. Dianne R. Nielson, Executive Director

R307-405-3. Definitions.

(1) Except as provided in (2) below, the definitions contained in 40 CFR 52.21(b), effective ~~March 3, 2003~~ July 1, 2006, are hereby incorporated by reference.

(2) ~~["Air Quality Related Values," as used in analyses under 40 CFR 52.21(p) that is incorporated by reference in R307-405-17, means those special attributes of a Class I area, assigned by a federal land manager, that are adversely affected by air quality.~~

R307-405. Permits: Major Sources in Attainment or Unclassified Areas (PSD).

R307-405-1. Purpose.

This rule implements the federal Prevention of Significant Deterioration (PSD) permitting program for major sources and major modifications in attainment areas and maintenance areas as required by 40 CFR 51.166. This rule does not include the routine maintenance, repair and replacement provisions that were vacated by the DC Circuit Court of Appeals on March 17, 2006. This rule does not include the clean unit and pollution control project provisions that were vacated by the DC Circuit Court of Appeals on June 24, 2005. This rule supplements, but does not replace, the permitting requirements of R307-401.

(1) Except as provided in (2), the provisions of 40 CFR 52.21(a)(2), effective July 1, 2006, are hereby incorporated by reference.

(2) The following provisions that apply to clean units and pollution control projects are not incorporated because these provisions were vacated by the DC Court of Appeals on June 24, 2005:

- (a) 40 CFR 52.21(a)(2)(iv)(e),
- (b) the last sentence in 40 CFR 52.21(a)(2)(iv)(f), and
- (c) 40 CFR 52.21(a)(2)(vi).

(3) Notwithstanding the exemptions in R307-401, any source that is subject to R307-405 is subject to the requirement to obtain an approval order in R307-401-5 through 8.

R307-405-3. Definitions.

(1) Except as provided in (2) below, the definitions contained in 40 CFR 52.21(b), effective July 1, 2006, are hereby incorporated by reference.

(2) (a)(i) "Major Source Baseline Date" means:

(A) in the case of particulate matter:

(I) for Davis, Salt Lake, Utah and Weber Counties, the date that EPA approves the PM₁₀ maintenance plan that was adopted by the Board on July 6, 2005;

(II) for all other areas of the State, January 6, 1975;

(B) in the case of sulfur dioxide:

(I) for Salt Lake County, the date that EPA approves the sulfur dioxide maintenance plan that was adopted by the Board on January 5, 2005;

(II) for all other areas of the State, January 6, 1975; and

(C) in the case of nitrogen dioxide, February 8, 1988.

(ii) "Minor Source Baseline Date" means the earliest date after the trigger date on which a major stationary source or a major modification subject to 40 CFR 52.21 or R307-405 submits a complete application under the relevant regulations. The trigger date is:

(A) In the case of particulate matter and sulfur dioxide, August 7, 1977, and

(B) in the case of nitrogen dioxide, February 8, 1988.

(iii) The baseline date is established for each pollutant for which increments or other equivalent measures have been established if:

(A) the area in which the proposed source or modification would construct is designated as attainment or unclassifiable under section 107(d)(i)(D) or (E) of the Act for the pollutant on the date of its complete application under 40 CFR 52.21 or R307-405; and

(B) in the case of a major stationary source, the pollutant would be emitted in significant amounts, or, in the case of a major modification, there would be a significant net emissions increase of the pollutant.

(iv) Any minor source baseline date established originally for the TSP increments shall remain in effect and shall apply for purposes of determining the amount of available PM10 increments, except that the executive secretary shall rescind a minor source baseline date where it can be shown, to the satisfaction of the executive secretary, that the emissions increase from the major stationary source, or net emissions increase from the major modification, responsible for triggering that date did not result in a significant amount of PM10 emissions.

Rule R307-410 is also required by Section II, Review of New and Modified Air Pollution Sources and Section XVIII, Demonstration of GEP Stack Height, of the State Implementation Plan, which are incorporated by reference under R307-110. This plan is required under Clean Air Act, 42 U.S.C. 7410 and 40 CFR 51 subpart I, and 40 CFR 51.118. Without this plan, EPA would be required to impose a federal implementation plan.

2.	Title of rule or section (catchline): Permits: Ozone Offset Requirements in Davis and Salt Lake Counties
3.	A concise explanation of the particular statutory provisions under which the rule is enacted and how these provisions authorize or require the rule: Subsection 19-2-104(1) states that the Air Quality Board may make rules "(a) regarding the control, abatement, and prevention of air pollution from all sources and the establishment of the maximum quantity of air contamination that may be emitted by any air contaminant source." The purpose of R307-420 is to require emission reductions from existing sources to offset emission increases from new or modified sources of ozone precursors in Salt Lake and Davis Counties. The emission offset will minimize growth of ozone precursors to ensure that these areas will continue to maintain the ozone national ambient air quality standards.
